DETAILED ACTION

Allowable Subject Matter

Claims 1, 3, 9, 11-16, 19-24 and 27-29 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Board reversed the rejections under Manzoni et al., and Zhang et al. because there is no teaching or suggestion by the prior art to increase the amount of soy relative to the amount of other components in the media in order to increase statins production.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 11-16, 19-24 and 27-29 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 1,3 and 9, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 9/16/2003 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim

Art Unit: 1617

presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Aronson on September 23, 2010.

Claim 1 has been written to read as "A process for the preparation of one or more statins by fermentation of claim 19, wherein a substrate is fermented with a statins-producing *monascus ruber* fungus, characterized in that the substrate comprises more than 50% by weight of soy products, and wherein the fermentation product comprises one or more statins or one or more polyphenols and has a Hue a* value less than 20."

Claims 2 and 4-8 are cancelled.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DANIELLE SULLIVAN whose telephone number is (571)270-3285. The examiner can normally be reached on 7:30 AM - 5:00 PM Mon-Thur EST.
